

SETTING NEW STANDARDS

www.proverp.com

WELCOME

The major challenge for SMB manufacturers today is the demand to process growing data volumes with less resources and time. ProVerp is designed to specifically tackle this problem so companies are able to integrate all business processes into a single integrated solution. ProVerp allows manufacturers to efficiently run their business through carefully designed modules:

-  **Financials and controlling**
-  **Logistics and Distribution**
-  **Manufacturing**
-  **Customer Relationship Management**
-  **Human Resource Management**
-  **Administration**

ProVerp represents a strategic choice for accelerating growth and competitiveness of small and medium size enterprises. We incorporate all the benefits of large scale software solutions while maintaining a flexible and simple user experience.

With our automated implementation capabilities, easy to learn user interface and cloud based hosting, ProVerp ensures a cost effective and powerful solution to gain immediate value.

“
Drawing on Varsun’s 13 years of industry knowledge and experience in SMB manufacturing , we have created a comprehensive ERP system that facilitates all of your business needs.”
”

A photograph of a man in a dark suit and patterned tie sitting in a chair, smiling at the camera. He is in a meeting room with other people in the background, some of whom are blurred. The room has large windows and a whiteboard. There are orange bars at the top and bottom of the image.

**GROWTH IS NEVER BY CHANCE, IT IS
THE RESULT OF FORCES
WORKING
TOGETHER**

A photograph of four business professionals in a modern office setting. Two men are shaking hands over a glass table covered with business reports and charts. Two other people are visible in the background, smiling. The scene is brightly lit with large windows.

INTEGRATED SOLUTION

ProVerp offers a proven expertise in delivering cloud based solutions with the highest levels of security and performance so companies can enjoy the benefits of the SaaS model without having to compromise on functionality. ProVerp is designed to be an all-in-one solution that meets the demands of SMB manufacturers.

With ProVerp's integrated design, managers can leverage reports and dashboards in realtime, while users only need to enter data once. All modules have been carefully designed to provide powerful and versatile functionality through a consistent and intuitive user interface.

F**FINANCIAL MANAGEMENT**

Our financial services provide all the core accounting functionality including accounts payable, accounts receivables, general ledger, fixed assets, and budgeting. ProVerp also provides the ability to create and submit online expense reports, automated bank reconciliation, and consolidation of multiple business entities.

M**MANUFACTURING MANAGEMENT**

Our manufacturing services provide engineering, production and plant/shop floor management. ProVerp includes a configurable quality management system that allows you to setup your quality control and assurance program specific to your industry and regulatory compliance requirements.

A**ADMINISTRATION**

Our administration module allows you to easily set up business workflows and configure ProVerp to meet your industry and company requirements. Streamline your implementation with our setup wizards and data conversion tools.

D**DISTRIBUTION MANAGEMENT**

Our distribution services provide seamless integration between sales orders, purchasing, billing, inventory, warehouse and dispatch. ProVerp streamlines key processes including automated stock re-orders, purchase requisitions to RFQ's, and the ability to save repeat sales orders.

H**HRMS MANAGEMENT**

Our human resource services provide complete personnel and payroll management. Through our employee portal you can update your benefits, submit a vacation request, manage your deductions, and view appraisals.

C**CRM MANAGEMENT**

Our customer relationship management services allows you to set up your sales stages, track leads, and in the pipeline view drag and drop deals. Add notes to deals and track your calls and email conversations.

OUR STRENGTH

An intuitive system designed to streamline operations

“*Proverp combines the power of large scale enterprise solutions with industry-specific features revolutionizing data management & planning.*”

Convert your vision into reality, through Proverp

“*Our flexible and scalable solution can adapt to meet your specific manufacturing needs, while being extremely easy to use and versatile.*”

WHAT MAKES US UNIQUE
